What is Universal Healthcare?

WHO Definition - Universal health coverage means that all people have access to the health services they need, when and where they need them, without financial hardship. It includes the full range of essential health services, from health promotion to prevention, treatment, rehabilitation, and palliative care.

Attempts at Implementation - Idea began in 1910s, FDR tried to introduce with social security, failed, Truman tried FDR's plan again, failed, Nixon tried national health care, failed, Carter tried to gradually phase into universal, failed, Clinton tried to revise system, failed, Obama's medicare for all, while not universal, did pass.

BACKGROUND

assisted suicide or physician-assisted suicide is a controversial topic that has many views around the world that we'll get into in this presentation

It can be mild, moderate, or severe.

What can help?

Your Community

- ➔ Helping to stay organized
- ➔ Help with proofreading
- ➔ Help with sense of direction
- ➔ Be patient and kind
- ➔ Break down instructions it to part to help them remender

IEP Accommodation

- ❖ Text-to-speech
- ❖ Speech-to text
- ❖ Time extension
- ❖ Small/individual group
- ❖ Frequent breaks
- ❖ Spelling and grammar check
- ❖ Special font call Opendyslexic

You can

- ➢ Use time wisely
- ➢ Use available technology
- ➢ Ask for help
- ➢ Use tools

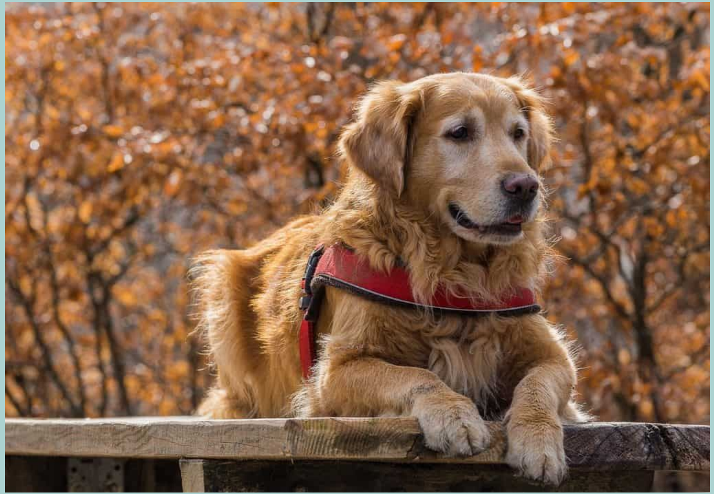
Background Info:

- ❖ Service dog:
  - ➢ Assist disabled people
  - ➢ Enhances independence
  - ➢ 80,000,000
- ❖ The Americans with Disabilities Act (ADA)
  - ➢ Civil rights act
  - ➢ Prohibits discrimination

Under the ADA:

- ❖ What is qualified as a service dog?
- ❖ Requirements



Slides and Presentation Evaluation

Slides
SlidesGo template, correct title and takeaway slides
Strength of research content - depth
Spelling, capitalization, not too many or too few words
Structure and flow make sense
Visually appealing - layout, colors, pictures, fonts, animations

Presentation
Spoke loudly, enthusiastically, and made good eye contact
Used animations for good pacing - not too fast or too slow
Explained research findings well and backed statistics up with sources
Wrapped up with 3 clear takeaways
Answered questions well

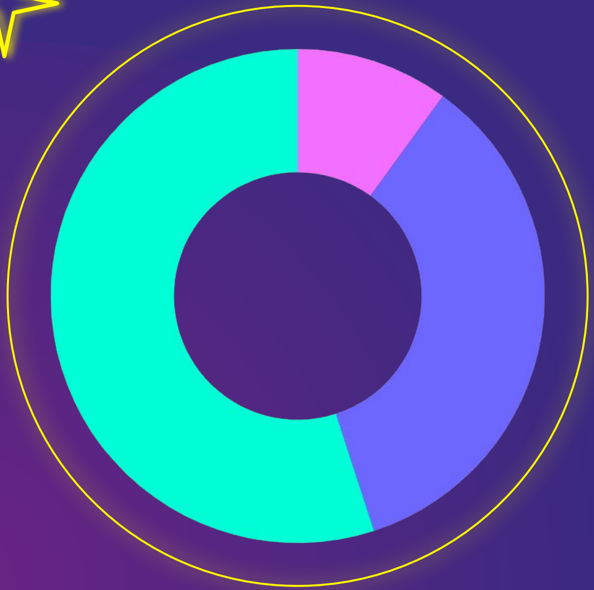
The Process

- 40 Notecards – 1 fact each
- Sort your cards into piles of "like" thinks
- Put the piles in order – those become your slides
- Make slide #1 – topic, question, name
- Make slide #7 – question, 3 takeaways, best source
- Choose a layout for each slide based on what you need to put on each slide

Tips

- Do not delete extra slides
- No Table of Contents, Thank You, or Questions? Slides
- Statistics – Who? When? Be sure to give information (can be verbally)
- Do animations last
- Yes, you can have presentation notes

ADDICTION



38%

DRUG ADDICTION

38% of people who got into gambling had a drug addiction

60.8%

PERSONALITY DISORDER

60.8% of people going into gambling have a personality disorder

75%

ALCOHOL ADDICTION

75% of people going into gambling have/had an alcohol addiction

11th Grade

Disease Prevention and Immunization

How do Vaccines work, and how effective are they at preventing disease?

By: Logan Minott

Definition of an Addiction

Addiction

Compulsion to engage in behaviors forming a psychological state of dependence

Symptoms

- Uncontrolled **Craving**
- Increased **Tolerance**
- **Withdrawal** Symptoms

Chemical

Addiction to a Substance

Non-Chemical

Behavioral Addiction
